Telecommunication Engineering graduate with experience in Network Monitoring, VSAT Operations, LAN Troubleshooting, Linux Server Administration, MikroTik Configuration, Incident Analysis, Technical Support, and Operational Monitoring. Strong analytical and problem-solving skills developed through telecommunication internships, homelab projects, and business operations management. Seeking opportunities as Network Operations Center (NOC), IT Support, or Network Support Engineer.

TECHNICAL SKILLS

Networking

Network Monitoring • VSAT Operation • LAN Troubleshooting • Routing & Switching, • VLAN, DHCP, NAT, Firewall, QoS, VPN, TCP/IP

Systems & Tools

MikroTik (Winbox) • Linux (Ubuntu) • SSH, PuTTY, Wireshark, • Basic Router Configuration, • Excel/Office

Technical Support

CCTV Installation & Configuration • Hardware & Software Troubleshooting • Remote Support.

EXPERIENCE

CV Mandha Sejati

January 2025 – June 2026

Operations Support | F&B Retail Business (Madha Geprek)

- Coordinated daily outlet operations and workforce activities to ensure smooth business continuity during high-demand periods.
- Developed Microsoft Excel-based reporting tools and dashboards to automate revenue calculations and monitor outlet performance.
- Managed inventory planning, procurement, and operational reporting to support business performance and cost control.
- Assisted in installing and configuring CCTV systems, Wi-Fi routers, and provided first-level troubleshooting for computers and network connectivity.
- Collaborated with the business owner to improve operational workflows and implement process improvements across business operations.

PT Pasifik Satelit Nusantara (PSN)

August 2023 – December 2023

Satellite Control Center Intern

- Monitored real-time VSAT network performance and satellite connectivity to maintain service availability in accordance with SLA targets.
- Performed Tracking, Telemetry & Command (TT&C) operations on Mobile VSAT systems to ensure stable satellite communications.
- Conducted first-level incident analysis and troubleshooting before escalating complex issues to Tier-2 Network Engineers.

- Assisted in developing Standard Operating Procedures (SOP) for LNA replacement, improving maintenance efficiency by 20%.
- Supported engineering teams in planning and deploying new VSAT antenna sites in Cikarang and Medan.

PT Telekomunikasi Seluler (Telkomsel)

January 2020 – February 2020

Network Engineer Intern

- Assisted in network deployment, internet installation, and basic network topology implementation for commercial office environments.
- Installed and configured MikroTik routers and network switches to support LAN connectivity and network performance.
- Performed network monitoring and first-level troubleshooting to identify and resolve connectivity issues.
- Supported drive test activities and assisted in analyzing cellular signal quality and network performance.

EDUCATION

Politeknik Negeri Jakarta (PNJ)

August 2021 – August 2024

Diploma (D3) in Electrical Engineering – Telecommunication

SMK Dinamika Pembangunan 1 Jakarta

June 2018 – June 2021

Vocational High School Major in Computer and Network Engineering (TKJ)

CERTIFICATIONS

Network Addressing and Basic Troubleshooting 26 July 2026

Cisco Networking Academy

Google IT Support 23 July 2026

Google Career Certificates by Coursera

Certified Radio RF Planner – BNSP September 2024 – September 2027

LSP Telekomunikasi Digital Indonesia

PROJECTS

Linux VPS & Network Administration

Ubuntu Server, SSH, Winbox, Port Forwarding, Firewall, Service Monitoring

- Deployed and managed an Ubuntu-based VPS for remote administration, network service monitoring, and connectivity troubleshooting.
- Configured SSH remote access, firewall rules, and port forwarding to support remote management.

Network Homelab & Simulation

MikroTik, Cisco Packet Tracer, VMware

- Built networking lab environments to practice VLAN, DHCP, NAT, subnetting, static routing, and LAN troubleshooting.
- Simulated network scenarios to strengthen troubleshooting and network configuration skills.
